1. INTRODUCTION

1.1. Purpose of this document

The purpose of this document is to provide a description about the release versions of the EIC v1.1.0.

The EIC v1.1.0 is a subset of highly reusable and interoperable solutions from the European Commission (TES) and a PDF document including a short narrative of the ELIS and a link pointing to its repository.

1.2. Release date

This version of the EIC will be released on the 26th of July 2019 in [Joinup](#).

1.3. Description

The European Interoperability Cartography (EIC), as defined in the EC Communication COM(2017) 134 Annex 2 on the European Interoperability Framework as a “*repository of interoperability solutions for European public administrations provided by Union institutions and Member States, presented in a common format and complying with specific re-usability and interoperability criteria that can be represented on the EIRA*”.

EIC v1.0.0 has been released on the 12th of June 2018. It was composed by a subset of the best-in-class reusable and interoperable solutions from the European Commission (TES) and EU Member States (IES). About one year later, version 1.1.0 of the EIC has been released, containing upgrades as regards especially the alignment to the new EIRA v3.0.0. In particular, the content of the release has gone through quite several changes with respect to:

- Migration to the EIRA v3.0.0 with a significant Data Quality Improvement
- Update of the Data Quality, Reusability and Interoperability score of the EIC solutions
- Restructuring of the EIC folder composition
- Inclusion of the ELIS (EIRA Library of interoperability Specifications)

1.4. List of acronyms

Acronym	Description
EC	European Commission
EIC	European Interoperability Cartography
EIRA	European Interoperability Reference Architecture.
ELIS	EIRA Library of Interoperability Specifications

2. EIC V1.1.0 RELEASE COMPONENTS

The EIC v1.1.0 release consists of the following release components:

- **EIC v1.1.0 Cartography**, containing the EIC Solutions Archi models and a PDF document including a brief description of the ELIS and a link to its web repository
- **ISA Product license v1.3**, the license under which EIC has been released.

2.1. [EIC v1.1.0 Cartography](#)

EIC v1.1.0 Cartography containing the 'Archi' version of the EIC **solutions model** and PDF document containing a short narrative of the ELIS and the links pointing to its repository

Modification	Details
Version 1.1.0	
Migration to EIRA v.3.0.0	Migration of the EIC Solutions from EIRA v2.1.0 to the EIRA v3.0.0 with a significant Data Quality Improvement
Restructuring of the EIC folder composition	The official EIC v1.1.0 release consists of 7 solutions (the EIC v1.0.0 consisted of 10 solutions). 3 Member States' solutions (Oskari, gvSIG Desktop, Supervisor) that were among the winners of the Sharing & Reuse award in 2017 have been removed from the EIC v1.1.0 release.
Update of the Data Quality, Reusability and Interoperability score of the EIC solutions	Update of the Data Quality, Reusability and Interoperability score of the 5 EIC solutions that participated to the new Data Quality review cycle. These values represent the results of that analysis performed with the collaboration of the solution owners.
Inclusion of the ELIS in the EIC	Added a PDF document including a short narrative of the ELIS and a link pointing to its repository.
