1 INTRODUCTION

1.1 Purpose of this document

This document contains the description of the release version 4.0.0 of the Cartography Tool (CarTool).

1.2 Release date

Version 4.0.0 of the CarTool has been released on the 19/04/2021 on [Joinup](#).

1.3 Description

The Cartography Tool brings together high-level support for the EIRA as a plug-in for the popular ArchiMate® modelling tool Archi®. It includes both editing features, to model solutions using the EIRA, and querying features to query an EIRA-based Cartography of solutions.

Details on the individual components of this release are provided in the Chapter 2, "Release components".

1.4 List of acronyms used in this document

Table 1-1

Acronym	Description
EIRA	European Interoperability Reference Architecture
ELIS	European Library of Interoperability Specifications
PURI	Persistent Unique Identifier

2 RELEASE COMPONENTS

This CarTool release consists of the following release components.

2.1 [eu.europa.ec.eira.cartool 4.0.0.v20210312-0935.jar](#)

The CarTool Archi® plug-in.

Modification	Details
Version 4.0.0	
CarTool release based upon Archi(r) v4.7.1 with support for EIRAv4.0.0	Align the CarTool plugin with the latest available version of the Archi software. The latest version is Archi 4.7.0, released on 15 July 2020. This version of Archi supports ArchiMate 3.1.
EIRA v4.0.0 Support	Align the CarTool plugin with the latest available version of the EIRA (v4.0.0)
Restructure of the CarTool folders -Create the "My Solution Architecture Templates" folder	Creation of a new folder in the CarTool under the folder "My Library". The new folder has been called "My Solution Architecture Templates". The folder has two sub-folders called "My Detailed-Level Solution Architecture Templates" and "My High-Level Solution Architecture Templates". These folders enable the user to collect all his/her solution architecture templates.
Import of Solution National Architecture Templates (both HL and DL SATs)	Development of a functionality to import national High-Level and Detailed-Level Solution Architecture Templates. This functionality requires adding the possibility to import the proper Archimate file in "My Detailed-Level Solution Architecture Templates" or "My High-Level Solution Architecture Templates" folder depending on the type of SAT. Inserted the instructions to import and use National Interoperability Specifications and Reference Architecture Updated the instructions to consult the ELIS (European Library of Interoperability Specifications)
Qualification of the imported RAs and DL/HL SATs	It has to be implemented in the CarTool the functionality to qualify the imported RAs and DL/HL SATs. Furthermore, it has to be defined a clear nomenclature.
Enable the functionality "Add to model" for the Interoperability Requirement ABB when creating a HL SAT	Development of a functionality enabling the user to instantiate the Interoperability Requirement ABB in a new HL SAT as a Solution Building Block (SBB). This features was present only when the user is modelling a new solution or DL SAT. This functionality has been enabled only for the Interoperability Requirement ABB present in the EIRA Ontology Viewpoint when the user is modelling a HL SAT.
Version 3.1.0	
CarTool release based upon Archi(r) v4.6 with support for EIRAv3.1.0	
User guide update	<p>Aligned with the EIRA v3.1.0.</p> <p>Modified the description of the CarTool Structure.</p> <p>Modified the overview of the features of the CarTool.</p> <p>Modified the "Inspecting the EIRA, the EIRA Extension Library and My Library" section, "Accessing interoperability specifications" section and the "Creating and updating solutions and SATs" sections.</p> <p>Inserted the instructions to import and use National Interoperability Specifications and Reference Architecture Updated the instructions to consult the ELIS (European Library of Interoperability Specifications)</p>

CarTool v4.0.0 release notes

CarTool Structure update	
Include the ELIS (European Library of Interoperability Specifications)	
Add advanced functionalities that support solution modelling with EIRA	Possibility to use imported reference architecture for stereotyping SBBs and creating new Solutions. Possibility to use imported National Interoperability Specifications by adding them to an ABB or SBB.
Version 3.0.0.	
Cartool release based upon Archi(r) v4.3 with support for EIRAv3.0.0	
User guide update	Aligned with the EIRA v3.0.0. Introduced the description of the CarTool Structure. Modified the overview of the features of the CarTool. Modified the "Inspecting the EIRA, the EIRA Extension Library and My Library" section, "Accessing interoperability specifications" section and the "Creating and updating solutions and SATs" sections. Added the instructions to consult the ELIS (European Library of Interoperability Specifications) and to consult the online documentation of the building blocks in joinup.
CarTool Structure update	
Include the ELIS (European Library of Interoperability Specifications)	
Add advanced functionalities that support solution modelling with EIRA	Possibility to use a reference architecture qualification when stereotyping SBBs. Possibility to consult online documentation of the building blocks through PURIs.
Add H-L SAT Blockchain v1.1.0	
Version 2.2.0.	
Cartool release based upon Archi(r) v4.2 with support for EIRAv2.1.0	
User guide update	Modified installation instructions for European Commission users. Added install instructions for European Interoperability Cartography (EIC) solution.
Version 2.1.0	
Release the installation guide in both pdf and doc format	
Include Interoperability Specifications library	
TES download for FTP not allowed anymore: switch to SFTP	
Add EIRA v2.1.0 support	
Add Testbet SAT 1.0.0	
Add eProcurement SATs	SAT e-Procurement v1.0.0 beta SAT e-Procurement accessing v1.0.0 beta SAT e-Procurement awarding v1.0.0 beta SAT e-Procurement contracting v1.0.0 beta SAT e-Procurement discovering v1.0.0 beta

CarTool v4.0.0 release notes

	SAT e-Procurement evaluating v1.0.0 beta SAT e-Procurement fulfilling 1.0.0 beta SAT e-Procurement invoicing v1.0.0 beta SAT e-Procurement notifying v1.0.0 beta SAT e-Procurement ordering v1.0.0 beta SAT e-Procurement quoting v1.0.0 beta SAT e-Procurement submitting v1.0.0 beta
Update SATs eID, eDelivery, eHI	eID to v1.0.0. eDelivery to v1.0.0. eHI to v1.0.0.
Allow BULK export of all TES to MEF format	Use the result of the query builder as list for export
Add Catalogue of Services v1.0.0	
Version 2.0.1	
Support for FTP and FTPS.	
Version 2.0.0	
EIRA v2.0.0 support	
Archi 4 support	
ArchiMate 3 support	

2.2 [CarTool v1.0.0 logo.zip](#)

A Microsoft Windows icon file with the CarTool logo that can be used to create a CarTool themed shortcut for Archi®. Includes a README file with instructions on how to use.

Modification	Details
Version 1.0.0	

2.3 [CarTool v4.0.0 user guide.pdf](#)

A PDF document describing how to install and use the CarTool.

Modification	Details
Version 4.0.0	
Modified the description of the CarTool Structure. Modified the overview of the features of the CarTool. Modified the "Inspecting the EIRA, the EIRA Extension Library and My Library" section, "Accessing interoperability specifications" section and the "Creating and updating solutions and SATs" sections. Added the instructions to import HL SAT and DL SAT.	
Version 3.1.0	
Modified the description of the CarTool Structure. Modified the overview of the features of the CarTool. Modified the "Inspecting the EIRA, the EIRA Extension Library and My Library" section, "Accessing interoperability specifications" section and the "Creating and updating solutions and SATs" sections. Added the instructions to consult the ELIS (European Library of Interoperability Specifications) and to	

CarTool v4.0.0 release notes

consult the online documentation of the building blocks in joinup.	
Version 3.0.0	
Introduced the description of the CarTool Structure. Modified the overview of the features of the CarTool. Modified the "Inspecting the EIRA, the EIRA Extension Library and My Library" section, "Accessing interoperability specifications" section and the "Creating and updating solutions and SATs" sections. Added the instructions to consult the ELIS (European Library of Interoperability Specifications) and to consult the online documentation of the building blocks in joinup.	
Version 2.2.0	
Modified installation instructions for European Commission users. Added install instructions for European Interoperability Cartography (EIC) solution.	
Version 2.1.0	
Updates for <u>upgrading</u> the CarTool for national and European Commission users.	
Version 2.0.1	
Updates for new Joinup structure.	
Version 2.0.0	
Archi 4 support	
Updates for installing Archi and the Cartool for national and European Commission users.	
Updates for Cartool 2.0.0	

2.4 [ISA Product License v1.3.zip](#)

The license under which the CarTool is released.

Modification	Details
Version 1.3	

CarTool v4.0.0 release notes

2.5 [CarTool v4.0.0 release.zip](#)

An archive containing each of the above mentioned files.

Modification	Details
Version 4.0.0	
Files corresponding to 4.0.0. release	
Version 3.1.0	
Files corresponding to 3.1.0. release	
Version 3.0.0	
Files corresponding to 3.0.0. release	
Version 2.2.0	
Files corresponding to 2.2.0. release
