Factsheet Cyprus

Main interoperability activities

Cyprus has plans to develop a NIF and the document is expected to be ready by the end of 2013.

Summary of the NIF

No NIF has been developed yet for Cyprus.

Alignment NIF/EIF

Currently Cyprus has no NIF yet. Cyprus has concrete plans to develop a NIF for which the recommendations of the EIF will be taken into account.

Other initiatives on interoperability

Cyprus eGovernment Gateway (CeGG): This initiative, expected to be operational by Q1 of 2014, shall provide the core architecture for e-services delivery, as well as the required core services enabling the delivery of such e-services and the execution of online transactions in a secure manner.

Government Data Warehouse: A future project with planned delivery date of mid 2015.

Together with the Cyprus NIF, the **Information Systems Strategy** and the **Procedures and Standards** for implementation will be evaluated and revised, and a **Government Security Policy** will be drafted. These results are expected to be ready by the end of 2013.

NIF responsibles for Cyprus

Marios Vassiliou (mvassiliou@dits.mof.gov.cy)

Norma Klippi Pekri (nklippi@dits.mof.gov.cy)
