v. 1.12

EUPL © the European ~~Community~~ Union 2007, 2013

This European Union Public Licence (the “EUPL”) applies to the Work ~~or Software~~ (as defined below) which is provided under the terms of this Licence. Any use of the Work, other than as authorised under this Licence is prohibited (to the extent such use is covered by a right of the copyright holder of the Work).

The Original Work is provided under the terms of this Licence when the Licensor (as defined below) has placed the following notice immediately following the copyright notice for the Original Work:

*Licensed under the EUPL ~~v.1.1~~*

or has expressed by any other means his willingness to license under the EUPL.

## **1. Definitions**

In this Licence, the following terms have the following meaning:

- *The Licence*: this Licence.

- *The Original Work*: ~~or the Software~~: the work or software distributed and/or communicated by the Licensor under this Licence, available as Source Code and also as Executable Code as the case may be.

- *Derivative Works*: the works or software that could be created by the Licensee, based upon the Original Work or modifications thereof. This Licence does not define the extent of modification or dependence on the Original Work required in order to classify a work as a Derivative Work; this extent is determined by copyright law applicable in the country mentioned in Article 15.

- *The Work*: the Original Work and/or its Derivative Works.

- *The Source Code*: the human-readable form of the Work which is the most convenient for people to study and modify.

- *The Executable Code*: any code which has generally been compiled and which is meant to be interpreted by a computer as a program.

- *The Licensor*: the natural or legal person that distributes and/or communicates the Work under the Licence.

- *Contributor(s)*: any natural or legal person who modifies the Work under the Licence, or otherwise contributes to the creation of a Derivative Work.

- *The Licensee* or “*You*”: any natural or legal person who makes any usage of the Software-Work under the terms of the Licence.

- *Distribution* and/or *Communication*: any act of selling, giving, lending, renting, distributing, communicating, transmitting, or otherwise making available, on-line or off-line, copies of the Work or providing access to its essential functionalities at the disposal of any other natural or legal person.

## **2. Scope of the rights granted by the Licence**

The Licensor hereby grants You a world-wide, royalty-free, non-exclusive, sub-licensable licence to do the following, for the duration of copyright vested in the Original Work:

- use the Work in any circumstance and for all usage,
- reproduce the Work,
- modify the Original Work, and make Derivative Works based upon the Work,
- communicate to the public, including the right to make available or display the Work or copies thereof to the public and perform publicly, as the case may be, the Work,
- distribute the Work or copies thereof,
- lend and rent the Work or copies thereof,
- sub-license rights in the Work or copies thereof.

Those rights can be exercised on any media, supports and formats, whether now known or later invented, as far as the applicable law permits so.

In the countries where moral rights apply, the Licensor waives his right to exercise his moral right to the extent allowed by law in order to make effective the licence of the economic rights here above listed.

The Licensor grants to the Licensee royalty-free, non exclusive usage rights to any patents held by the Licensor, to the extent necessary to make use of the rights granted on the Work under this Licence.

## **3. Communication of the Source Code**

The Licensor may provide the Work either in its Source Code form, or as Executable Code. If the Work is provided as Executable Code only, the Licensor provides in addition a machine-readable copy of the Source Code of the Work along with each copy of the Work that the Licensor distributes or indicates, in a notice following the copyright notice attached to the Work, a repository where the Source Code is easily and freely accessible for as long as the Licensor continues to distribute and/or communicate the Work.

101 **4. Limitations on copyright**

102

103 Nothing in this Licence is intended to deprive the Licensee of the benefits from any  
104 exception or limitation to the exclusive rights of the rights owners in the Original  
105 Work ~~or Software~~, of the exhaustion of those rights or of other applicable limitations  
106 thereto.

107

108 **5. Obligations of the Licensee**

109

110 The grant of the rights mentioned above is subject to some restrictions and obligations  
111 imposed on the Licensee. Those obligations are the following:

112

113 **Attribution right:** the Licensee shall keep intact all copyright, patent or trademarks  
114 notices and all notices that refer to the Licence and to the disclaimer of warranties.  
115 The Licensee must include a copy of such notices and a copy of the Licence with  
116 every copy of the Work he/she distributes and/or communicates. The Licensee must  
117 cause any Derivative Work to carry prominent notices stating that the Work has been  
118 modified and the date of modification.

119

120 **Copyleft clause:** If the Licensee distributes ~~and/or~~ communicates copies of the  
121 Original Works or Derivative Works, this Distribution ~~and/or~~ Communication will be  
122 done under the terms of this Licence or of a later version of this Licence unless the  
123 Original Work is expressly distributed “ONLY” under this version of the Licence.  
124 The Licensee (becoming Licensor) cannot offer or impose any additional terms or  
125 conditions on the Work or Derivative Work that alter or restrict the terms of the  
126 Licence.

127

128 **Compatibility clause:** If the Licensee Distributes or Communicates Derivative  
129 Works or copies thereof based upon both the Original Work and another work  
130 licensed under a Compatible Licence, this Distribution or Communication can be  
131 done under the terms of this Compatible Licence, unless the Original Work is  
132 expressly distributed “ONLY” under this version of the Licence. For the sake of this  
133 clause, “Compatible Licence” refers to the licences listed in the appendix attached to  
134 this Licence. Should the Licensee’s obligations under the Compatible Licence conflict  
135 with his/her obligations under this Licence, the obligations of the Compatible Licence  
136 shall prevail.

137

138 **Provision of Source Code:** When distributing and/or communicating copies of the  
139 Work, the Licensee will provide a machine-readable copy of the Source Code or  
140 indicate a repository where this Source will be easily and freely available for as long  
141 as the Licensee continues to distribute and/or communicate the Work.

142

143 **Legal Protection:** This Licence does not grant permission to use the trade names,  
144 trademarks, service marks, or names of the Licensor, except as required for  
145 reasonable and customary use in describing the origin of the Work and reproducing  
146 the content of the copyright notice.

147

148

149

150

151

152 **6. Chain of Authorship**

153

154 The original Licensor warrants that the copyright in the Original Work granted  
155 hereunder is owned by him/her or licensed to him/her and that he/she has the power  
156 and authority to grant the Licence.

157

158 Each Contributor warrants that the copyright in the modifications he/she brings to the  
159 Work are owned by him/her or licensed to him/her and that he/she has the power and  
160 authority to grant the Licence.

161

162 Each time You accept the Licence, the original Licensor and subsequent Contributors  
163 grant You a licence to their contributions to the Work, under the terms of this  
164 Licence.

165

166 **7. Disclaimer of Warranty**

167

168 The Work is a work in progress, which is continuously improved by numerous  
169 Contributors. It is not a finished work and may therefore contain defects or “bugs”  
170 inherent to this type of ~~software~~ development.

171

172 For the above reason, the Work is provided under the Licence on an “as is” basis and  
173 without warranties of any kind concerning the Work, including without limitation  
174 merchantability, fitness for a particular purpose, absence of defects or errors,  
175 accuracy, non-infringement of intellectual property rights other than copyright as  
176 stated in Article 6 of this Licence.

177

178 This disclaimer of warranty is an essential part of the Licence and a condition for the  
179 grant of any rights to the Work.

180

181 **8. Disclaimer of Liability**

182

183 Except in the cases of wilful misconduct or damages directly caused to natural  
184 persons, the Licensor will in no event be liable for any direct or indirect, material or  
185 moral, damages of any kind, arising out of the Licence or of the use of the Work,  
186 including without limitation, damages for loss of goodwill, work stoppage, computer  
187 failure or malfunction, loss of data or any commercial damage, even if the Licensor  
188 has been advised of the possibility of such damage. However, the Licensor will be  
189 liable under statutory product liability laws as far such laws apply to the Work.

190

191 **9. Additional agreements**

192

193 While distributing the Original Work or Derivative Works, You may choose to  
194 conclude an additional agreement, ~~defining to offer, and charge a fee for, acceptance~~  
195 ~~of support, warranty, indemnity, or other liability~~ obligations and/or services  
196 consistent with this Licence. However, ~~if~~ accepting ~~such~~ obligations, You may act  
197 only on your own behalf and on your sole responsibility, not on behalf of the original  
198 Licensor or any other Contributor, and only if You agree to indemnify, defend, and  
199 hold each Contributor harmless for any liability incurred by, or claims asserted

200 | against such Contributor by the fact You have accepted any ~~such~~ warranty or  
201 additional liability.

202

### 203 **10. Acceptance of the Licence**

204

205 The provisions of this Licence can be accepted by clicking on an icon “I agree”  
206 placed under the bottom of a window displaying the text of this Licence or by  
207 affirming consent in any other similar way, in accordance with the rules of applicable  
208 law. Clicking on that icon indicates your clear and irrevocable acceptance of this  
209 Licence and all of its terms and conditions.

210

211 Similarly, you irrevocably accept this Licence and all of its terms and conditions by  
212 exercising any rights granted to You by Article 2 of this Licence, such as the use of  
213 | the Work, the creation by You of a Derivative Work or the Distribution ~~and/or~~  
214 Communication by You of the Work or copies thereof.

215

### 216 **11. Information to the public**

217

218 In case of any Distribution and/or Communication of the Work by means of electronic  
219 communication by You (for example, by offering to download the Work from a  
220 remote location) the distribution channel or media (for example, a website) must at  
221 least provide to the public the information requested by the applicable law regarding  
222 the Licensor, the Licence and the way it may be accessible, concluded, stored and  
223 reproduced by the Licensee.

224

### 225 **12. Termination of the Licence**

226

227 The Licence and the rights granted hereunder will terminate automatically upon any  
228 breach by the Licensee of the terms of the Licence.

229

230 Such a termination will not terminate the licences of any person who has received the  
231 Work from the Licensee under the Licence, provided such persons remain in full  
232 compliance with the Licence.

233

### 234 **13. Miscellaneous**

235

236 Without prejudice of Article 9 above, the Licence represents the complete agreement  
237 between the Parties as to the Work.

238

239 If any provision of the Licence is invalid or unenforceable under applicable law, this  
240 will not affect the validity or enforceability of the Licence as a whole. Such provision  
241 will be construed and/or reformed so as necessary to make it valid and enforceable.

242

243 The European Commission may publish other linguistic versions and/or new versions  
244 | of this Licence and/or updated versions of the Appendix, so far this is required and  
245 reasonable, without reducing the scope of the rights granted by the Licence. New  
246 versions of the Licence will be published with a unique version number.

247

248 All linguistic versions of this Licence, approved by the European Commission, have  
249 identical value. Parties can take advantage of the linguistic version of their choice.
