Horizon Europe Digital - Face2Face Brokerage

Home How it works Information Day Past events Project Idea Consultation Cascading Grant Arena Contacts

Ideal-ist, the network of National Contact Points for ICT research, in cooperation with the Enterprise Europe Network invites you to participate in a **brokerage event** with **pre-arranged online Face2Face meetings** complementing the first Horizon Europe event the Information Day on Cluster 4 - Digital, Industry & Space.

This brokerage event is a unique networking opportunity for actors in the DIGITAL field! Follow us via #F2F2022

Why participate?

- get the latest information from the European Commission
- build quality partnerships for participating in ICT across Horizon Europe
- facilitate the setup of project consortia for Horizon Europe calls
- discuss and develop new project ideas on ICT at international level
- acquire new cross-border contacts and initiate collaborations
- promote your research results, technologies and know-how

Who can participate?

Representatives of companies, universities and research institutes worldwide working in the ICT sector, interested in sharing new project ideas and finding collaboration partners.

Register now
Open until 16 December 2022.

	Bosnia And Herzegovina	1
	Finland	2
	France	11
	Georgia	1

The image shows a screenshot of the 'Pre-proposal Check' website interface and a corresponding PDF form. The website has a header with navigation links and a main section titled 'About Pre-proposal Check'. Below this, there are three colored arrows (blue, green, yellow) pointing right, representing different stages or options. The PDF form contains fields for 'Your Name', 'Organisation name', 'Country', 'E-mail', and 'Telephone number'. It also includes a 'Proposal summary' section with a 'Title' field (e.g., '4.4 ICT-2019-101-2019-2020') and a 'Topic' field (e.g., '4.4 ICT-2019-101-2019-2020 EU-Taiwan 5G Collaboration'). There are checkboxes for 'Research and Innovation Action', 'Innovation Action', 'Cooperation and Support Action', and 'Other please specify'. At the bottom, there is a table for 'List of participants already identified for new proposal/consortium lead' with columns for 'Name of organisation', 'Country', and 'Expertise'. A small table at the bottom left lists various technology areas like 'Info. technologies', 'Space', 'Transport', etc., with checkboxes for each.

Project Idea Check

Have a proposal idea? Get early feedback from experienced National Contact Points @Digital2022

Ideal-ist National Contact Points (NCPs) are available at key events to review your project ideas. Discuss discretely with NCPs whether your idea fits the call topic you chose. Or get help to find another topic.

When: By appointment
Where: Online

Have an idea?

Next Generation Internet

Topics

- **Pilots for the Next Generation Internet (IA)**
- **Next Generation Internet Commons Policy (CSA)**

NEXT GENERATION INTERNET : AN INTERNET OF TRUST

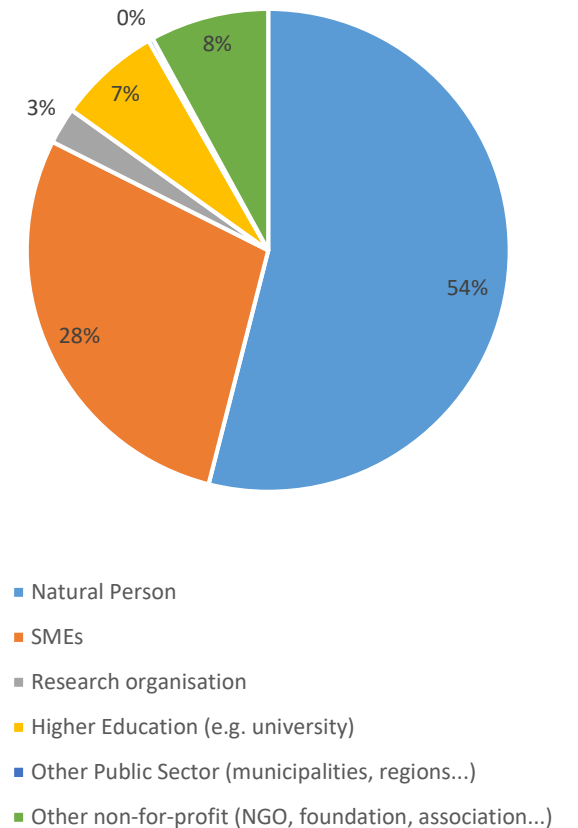

NEXT GENERATION INTERNET: CURRENT LANDSCAPE

- 4 years in operations; 11 RIAs, 5 CSAs
- 800+ projects awarded; 15% success rate in open calls
- 870+ third parties awarded; >>1000 innovators engaged
- **83% never received EC funding**
- 80% open source
- Covering all Europe

⇒ **Unique eco-systems of highly talented innovators driven by meaning and values and actually changing the internet**

<https://www.ngi.eu/discover-ngi-solutions>

Type of Awardees

Project implementation through sub-granting

Project submitted to EC call:

Run by organisations in the ecosystem

Leadership in the research area

RIAs: 80% for sub-grantees

Pilots: 15% for sub-grantees

R&I:

NGI Fund

NGI INCO – USA

IA:

Pilots for the NGI

Activities (examples)

- Definition of the calls for projects
- Attracting / selecting top-teams
- Monitoring
- **Mentoring, Coaching, Sharing**
- **Support to standardisation**
- Community building

Sub-grantee:

- **Carry out the R&I work**
- RIA (Fund): 50.000 - 150.000 Euro, 9 - 12 month (indicative)
- RIA (INCO): 150.000 Euro, 18 month (indicative)
- Pilots: 10.000 - 50.000 Euro, 6 - 9 month (indicative)

HORIZON-CL4-2023-HUMAN-01-12: Pilots for the Next Generation Internet (IA)

IA fostering the take up of Next Generation Internet (NGI) technologies and solutions in Europe by integrating them in a variety of industrial and societal use cases, enabling the emergence of internet ecosystems:

- In sectors, such as public services, healthcare and well-being, supply chain management, transport, finance, creative and cultural industries, tourism, energy and ICT.
- **Pilots** will include development, integration, testing, deployment, uptake and operation activities
- Focus on **open source solutions** (SW and HW) and integration and adoption of use case in specific sector and ensure cross-sector replicability and portability i.e. proposals should address use cases from at **least two different verticals** and **address their interdependencies**

Expected Outcome

Apply **Next Generation Internet** (NGI) technologies in a variety of industrial and societal use cases, enabling the emergence of internet ecosystems supporting the needs of key vertical sectors with high socio-economic impact.

Generate new business opportunities and enable the emergence of **new business** and **sustainability models** based on **Open Source**.

Support the community of **European top internet innovators**, with the capacity to set the course of the Internet evolution according to a **human-centric approach**.

Timing and conditions

Specific conditions	
Expected EU contribution per project	The Commission estimates that an EU contribution of between EUR 3.00 and 5.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
Indicative budget	The total indicative budget for the topic is EUR 14.00 million.

The Commission considers that proposals with an overall duration of typically **24 to 36 months** would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other durations.

For ensuring focused effort, third parties should be funded through projects typically in the **EUR 10 000 to EUR 50 000** range per project, with indicative duration of **6 to 9 months**.

A **minimum of 15%** of the total requested EU contribution should be allocated to financial support to third parties, selected through open calls, to incorporate third party contributions from **NGI open source innovators**

HORIZON-CL4-2023-HUMAN-01-14: Next Generation Internet Commons Policy (CSA)

While internet commons are critical in our digital life their importance it is not fully reflected at the strategic level with little representation of the communities involved, lack of structure, gap between grass-root commoners and top-down sovereignty policies, fragmented funding landscape

The scope of this support encompasses the following activities:

- Identify active **communities of commoners** in Europe and monitoring of their evolution and maturity levels
- Measure the **leverage effect** (e.g. in funding and resources) resulting from NGI funding
- Define a strategic agenda valid for the Multi-Annual Financial Framework timeframe and planning **expected maturation** of the various commons incubated in NGI
- Carry out **consultation** to identify internet commons priorities for **ensuring European sovereignty**
- Develop a plan to **support commoners** based on their needs that would include support to navigate the funding landscape and devise a path towards a **European one-stop shop**
- **Create and animate a group of experts** in internet commons that will analyse the NGI portfolio and devise opinion on its evolution every two months. The group should be representative of European geographies, internet building blocks, commoners diversity and include representatives of NGI on-going actions

HORIZON-CL4-2023-HUMAN-01-14: Next Generation Internet Commons Policy (CSA)

- Devise mechanisms for creating complementary and synergies with **like-minded efforts** at global, European and national levels including with European technology industries
- Elaborate **governance models** for future commons integrating European strategic autonomy policies as well as maintenance strategy
- In conjunction with NGI outreach office, organise **strategic events** involving key decision makers from national and European levels where the various outputs of the action are exposed and next steps discussed

Proposals should also demonstrate **strong knowledge of the open source** and internet commons context (e.g. funding mechanisms, methods of working, communities involved, commons life-cycle) and be familiar with the **technology building blocks** that make the internet.

Expected Outcome

Expected Outcome: Projects are expected to contribute to the following outcomes:

- A **stronger integration of the Next generation Internet** initiative, its vision and ecosystem, **with the digital commons** policies at national and European level
- A long-term **strategy for internet commons** which are critical for sovereignty and trust, based on a clear mapping of existing communities of commoners and commons
- A smooth articulation of **bottom-up** activities of European communities of commoners and **top-down** policy priorities e.g. for reaching critical mass, for the reuse of commons, and for avoiding overlaps
- A more **coherent funding** landscape

Timing and conditions

Specific conditions	
Expected EU contribution per project	The Commission estimates that an EU contribution of around EUR 2.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
Indicative budget	The total indicative budget for the topic is EUR 2.00 million .

The Commission considers that proposals with an overall duration of typically **36 months** would allow these outcomes to be addressed appropriately, while allowing the implementation of three open calls for third party projects. Nonetheless, this does not preclude submission and selection of proposals requesting other durations.
