

OpenPM² 2018 CONFERENCE

Brussels, Charlemagne | February 1 & 2

Introduction to PM²

Nicos Kourounakis

CoEPM² Consultant & Methodology Lead MASc, MBA, PMP, IPMA-D, PRINCE2, Agile PM²

About PM²

The PM² Offering enables **Organisations** to implement their Projects in a increasingly **effective** and **efficient** manner.

The PM² Methodology enables **project teams** to do "better" project management and deliver **solutions and benefits** to their Organisations & Stakeholders.

The Project Journey

Standish Group, CHAOS research: 1994 to 2008 Percentage of Successful, Failed and Challenged Projects

During project initiation:

- Lack of link between business strategy and project
- Unclear objectives, competing/conflicting objectives
- Little or no alignment among major stakeholders
- Inappropriate decision making
- Unclear Project Charter
- Lack of executive support & user involvement

During project planning & execution:

- Poor or no requirements
- Misunderstanding requirements
- Lack of customer involvement
- Poor planning: unrealistic timescales
- Scope creep: no change control
- Unrealistic effort/resource estimates
- Inappropriate skills
- Lack of communication
- Inadequate risk management
- Lack of clarity on performance and control metrics
- Inconsistent approaches and lack of PM training

A project "is a <u>temporary</u> organization setup to <u>create a unique product</u> or service (output) within certain <u>constraints</u> such as <u>time</u>, <u>cost</u>, and <u>quality</u>.

Project Outputs, Outcomes, Benefits

- Project deliverables are merely a means to an end.
- The real purpose of a project is to achieve outcomes.

The reason we run projects

Benefits

Outcomes + measurement -> Benefits

Outputs +use -> Outcomes

Project + effort -> Outputs

Solution + capabilities -> Project

Problem + context -> Solution

PM² Overview

Project Management vs Project Work

• Project Management Work:

WHY?

- What?
- When?
- Who?
- How?

- Project Work:
 - What?
 - When?
 - Who?
 - How?

PM² Responsibilities: RASCI

The Business Manager (BM) Profile

- Understands the business have access to people that understand the business
- Is capable of defending/expressing the interests of the organisation
- Has access to the Project Owner (PO) and a good line of communication
- Acts on a daily basis on behalf of the Project Owner (PO)
- Manages the business implementation activities and coordinates the User Representatives
- Leads the implementation of the business changes as defined by the project
- Ensures that the organisation is ready to absorb the change and use the final project deliverables
- Ensures that the Project outputs produce the expected results (outcomes and benefits)
- Cares about the outcome(s) of the project and "feels the pain" of bad project deliverables
