

GAMEPLAY

This is a summary of the steps of a given player's round. If you have any questions about the gameplay you can visit the Rulebook for a more thorough explanation.

-  **1. Take 2 insight cards & choose a category to geoswap.**
-  **2. Get the right answers:**
The player that is responsible for the chosen category selects a question from the category booklet to ask the first player. If he gets the right answer, the first player asks a question to the passive player.
-  **3. If you get the right answer:** Exchange one token of their category and geoswap.
-  **4. If you get the wrong answer:** The player next to active player gets a chance to answer the same question.
-  **5. Iterate until a player gets 5 tokens:** At the end of the turn, the next player in goes through the same steps. Repeat this process until one player geoswaps 5 times.
