eGov State of Play indicators

eGov services to business and citizens

No major changes highlighted for 2017.

Iceland keeps operating multiple eGov services for business (VAT and customs, Public contracts, Selling abroad...) and citizens (Residence formalities, Education and Youth, Work and retirement...).

Strategy & Legal frameworks

Actors

During 2017, there have been no changes linked to key actors and main contact points related to digital public administration in Iceland.

Infrastructure

No major changes highlighted for 2017.

Iceland keeps operating its main eGovernment infrastructure components among which portals (www.government.is, www.island.is ...), networks (optical fiber and high-speed), eID (Íslandsrót Certification Authority) or eProcurement solutions.

Check out the **NIFO collection** on **Joinup** for more details.

NIFO is a project service provided by the European Commission's ISA² programme.

It delivers solutions for European public administrations, citizens and businesses.

It assists EU countries in monitoring the take up of eGovernment and interoperability.
