

Use of Internet with Public authorities

eGov State of Play indicators

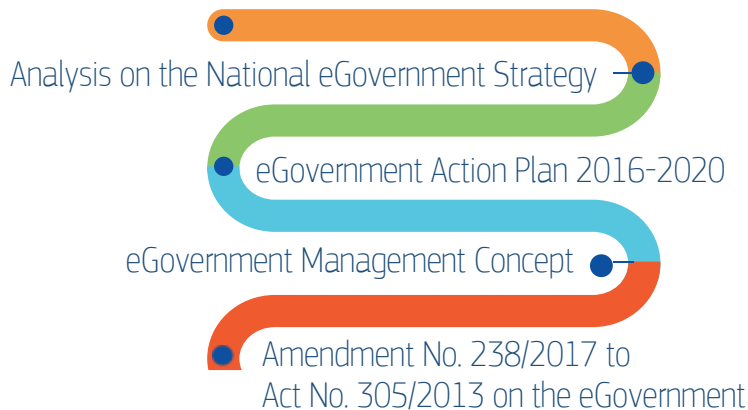

eGov services to business and citizens

No major changes highlighted for 2017.

Slovakia keeps operating multiple eGov services for business (VAT and customs, Public contracts, Selling abroad...) and citizens (Residence formalities, Education and Youth, Work and retirement...).

Strategy & Legal frameworks

Actors

- The Deputy Prime Minister's Office for Investments and Informatisation of the Slovak Republic.

The central public authority body established on the 1 June 2016. Among the main tasks of the Office, there is the participation in the creation and implementation of uniform state policy in the field of informatisation of the society and eGovernment.

Infrastructure

A project was implemented to increase the broadband speed with 30mbits/s for all citizens, allowing for new generation networks in high density areas.

Check out the **NIFO collection** on **Joinup** for more details.

NIFO is a project service provided by the European Commission's ISA² programme. It delivers solutions for European public administrations, citizens and businesses. It assists EU countries in monitoring the take up of eGovernment and interoperability.
