

Use of Internet with Public authorities

eGov State of Play indicators

eGov services to business and citizens

Public Payments Administration together with its partners launched the ROSE (Readiness Of Slovenian E-invoicing) Action in order to increase the uptake and use of eInvoicing by the Slovenian contracting authorities.

A subsidised transport ticket for students has been introduced in Slovenia.

Strategy & Legal frameworks

Draft of a new electronic identification law (eIDAS)

Actors

- Ministry of Public Administration
The ministry deals with policies and strategies on eGovernment and administrative processes.
- The IT Directorate
It monitors the implementation of the Strategy on IT and electronic services development and connection of official records (SREP) as well as the eGovernment Action Plan.

Infrastructure

A system for server based eSignature was launched. It allows the creation of an electronic signature with the private keys of the digital certificate holder securely stored in the central system.

The Public Payments Administration introduced an additional e-payment service called Hal mBills. It enables the payment of eServices via the Hal mBills mobile application.

The Agency for Public Legal Records and Related Services (AJPRES) established the Beneficial owners register in cooperation with the Office for Money Laundering Prevention of the Republic of Slovenia.

Check out the **NIFO collection** on **Joinup** for more details.

NIFO is a project service provided by the European Commission's ISA² programme. It delivers solutions for European public administrations, citizens and businesses. It assists EU countries in monitoring the take up of eGovernment and interoperability.
