

Use of Internet with Public authorities

eGov State of Play indicators

eGov services to business and citizens

The Swedish Companies Registration Office works since 2016 on a government commission to digitise the submission of companies' annual report. To be normally available from March 2018.

Launch of Severat, which facilitates the life of entrepreneurs willing to open and run a business, while streamlining the work of the municipality. It was first launched for the restaurant sector, and then extended to the tourist industry.

Strategy & Legal frameworks

Actors

- Following the government reshuffle in May 2016, the unit of eGovernment has been moved from the Ministry of Enterprise and Innovation to the Ministry of Finance and has been renamed to the Department of Digital Government.

Infrastructure

In March 2017, the technical framework of the Swedish e-Identification Board was updated and adapted to eIDAS. Authorities and municipalities will now be able to connect their eServices to the Swedish eIDAS node.

Check out the **NIFO collection** on **Joinup** for more details.

NIFO is a project service provided by the European Commission's ISA² programme. It delivers solutions for European public administrations, citizens and businesses. It assists EU countries in monitoring the take up of eGovernment and interoperability.
