Political Communications

On 5 May 2022, the government launched a new national strategy for digitalisation for 2022-2026. The strategy consists of 9 visions and 61 specific initiatives, constituting the main lines for the next chapter in Denmark’s digital development.

Legislation

Governance

No recent changes in governance have been reported to date.

Infrastructure

In 2021 and 2022 Denmark will migrate all existing NemID users to the new MitID solution, which directly translates into “MyID”. The MitID solution is developed in a well-established partnership between the Danish public sector and Finance Denmark, the Danish business association for banks and other financial institutions.
