**Highlights**

**Political Communications**

An updated National Broadband Plan was prepared and issued for public consultation in October 2021. The new plan is aligned with the European Connectivity Targets, and it includes a set of legislative measures as well as infrastructure deployment projects.

**Legislation**

Law 4727/2020 on Digital Governance provides for the creation of a register of public administrative procedures and a citizen communication register and the provision of the necessary institutional framework for the digital transformation of the Greek public sector.

**Governance**

Information Society S.A. is a key staff contributor to the implementation of the strategy, projects, and actions of the Ministry of Digital Governance in the context of the digital transformation of the public administration in Greece.

**Infrastructure**

The General Secretariat of Information Systems for Public Administration of Greece (GSISPA) created in 2021 a Single Government Cloud which can be used by government agencies to host their information systems.

---
