A communication from the Netherlands Enterprise Agency announced that the Dutch Parliament is currently discussing to introduce minimum requirements to ensure the digital security of devices connected to the internet – Internet of Things (IoT) devices.

As of 10 January 2022, a newly created position of Minister for Digitalisation has been established. The dedicated Minister will be responsible for the coordination regarding the digital ambitions of the government.

Transparency regarding the use of citizen data is of great importance to the Dutch government. As of 14 March 2022, Dutch citizens can use MijnOverheid to see which information from the Personal Records Base Registry (BRP) is being shared with which organisations.
