Sweden presented its first National Cyber Security Strategy in June 2017, which was supplemented with an appendix in July 2018. At the beginning of March 2019, a joint action plan to implement the strategy at the agency level was also presented.

The law on accessibility to digital public service entered into force in January 2019. The Agency for Digital Government (DIGG) has now the right to create legislation for the electronic format of the transfer of eInvoices.

Since January 2019, the government unit responsible for Digital Government was moved from the Ministry of Finance to the new Ministry of Infrastructure.

Two government assignments were issued in May 2018 focusing on establishing the foundation for a more standardised and interoperable national approach to base registries and information exchange.

The verksam.t.se portal provides a comprehensive single-point for entrepreneurs and enterprises to access relevant and official eServices and information from three public authorities: the Swedish Companies Registration Office; the Swedish Tax Agency; and the Swedish Agency for Economic and Regional Growth.

The vs.kamt.se portal provides a comprehensive single-point for entrepreneurs and enterprises to access relevant and official eServices and information from three public authorities: the Swedish Companies Registration Office; the Swedish Tax Agency; and the Swedish Agency for Economic and Regional Growth.
