

Digital Public Administration Infographic 2020 Liechtenstein

Political Communications

As part of the Government programme 2017-2021, the Digital Agenda is a central field of action for the new legislature. The main objective of Liechtenstein is to optimise the process efficiency of the national administration with a focus on electronic means of communication.

Legislation

On 7 May 2019, the government approved the report and application regarding the creation of a [Token and VT Service Provider Act \(TVTG\)](#), often simply referred to as the "Blockchain Act". The TVTG entered into force on January 1, 2020.

Governance

The responsibility for Liechtenstein's eGovernment strategy/policy lies within the [Ministry of General Government Affairs and Finance](#). The Liechtenstein State Administration is the body responsible for interoperability activities.

Infrastructure

In 2019, the government instructed the Office of information technology for the procurement and implementation of a new electronic-ID. The new electronic-ID will be released in Spring 2020.

United Nations eGovernment survey

2018 eGovernment indicators

* Liechtenstein is not required to supply complete data to Eurostat due to its small size and population. As a result, there are no values for the usual indicators contained in this infographic; instead, similar indicators are quoted from the UN E-Government Survey 2018.
