

Digital Public Administration Infographic 2020

Slovakia

Political Communications

The [Strategy of the Digital Transformation of Slovakia 2030](#) framed the governmental strategy defining national policies and particular priorities with regard to the ongoing digital transformation of the economy and society. The Strategy followed up on the priorities of the EU Digital Single Market.

Governance

The Deputy Prime Minister's Office for Investments and Informatization of the Slovak Republic, which coordinates the informatisation of society, created a data office and a behavioural office in 2019 in order to strengthen initiatives such as a data driven government and eGovernment services.

Legislation

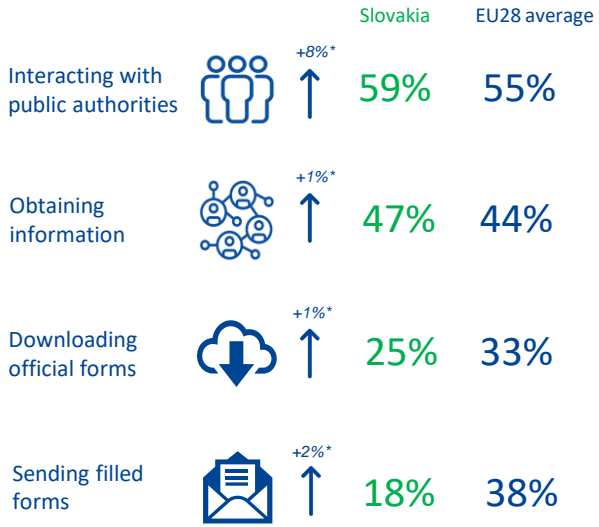

As of 1 May 2019, a new [Act No. 95/2019 on Information Technologies in Public Sector](#) entered into force replacing former Act 275/2006 on information systems in public administration. The new Act brought a systemic change into the management of IT in public sector.

Infrastructure

Logging in by eIDAS on all specialised portals was launched in February 2019, offering the users multiple options, including the use of foreign eIDAS. Many services accept eID based on the eID schemes of multiple EU Member States. At the end of 2019, Slovakia notified the creation of its eID scheme.
