Political Communications

The [Strategy for Digital Croatia 2032](#) defines the vision of Croatia improved by digital transformation and positions Croatia as an economically competitive country on the digital map of Europe. It identifies key challenges, development needs and potentials, brings concrete priority areas through four strategic goals: developed innovative digital economy, digitalized public administration, developed available and used large-capacity networks and developed digital competencies for living and working in the digital age.

Legislations

Croatia's legal basis for public procurement is the Public Procurement Act (OG 120/16). According to the amendments to the [Law on Amendments to the Law on Public Procurement](#) (OG 114/2022) adopted in 2022, the Complaint is now submitted by electronic means of communication through the interconnected information systems of the State Commission and the EOJN of the Republic of Croatia.

Infrastructures

The [e-Consultation portal](#) is the central State portal for public consultation that enables participation in open public consultations in the process of passing laws, other regulations and acts. During the year 2022, an expert working group was established in which representatives discussed about challenges in working with the system, necessary upgrades and further processes improvement.

Governance

In February 2023, the government of the Republic of Croatia adopted a Decision to Establish a National Council for Digital Transformation (22/2023). The Council's task is to monitor the implementation of the guidelines for the digital transformation of the Republic of Croatia in accordance with the Strategy for Digital Croatia 2032.
