

Highlights

Political Communications

In mid-March 2021, Denmark launched a [Digitalisation Partnership](#) in order to bring the ideas of experts from both the public and private sector into national and public digitalisation efforts.

Legislation

In 2021, the government evaluated the work with digital-ready legislation conducted over the last three years. The review indicated an increased focus on the application of new digital possibilities.

Governance

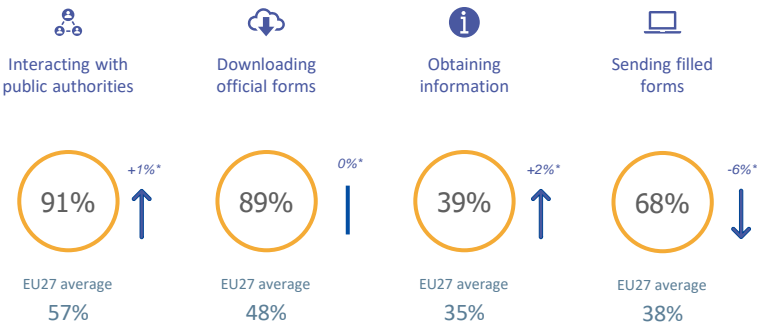

Since 2018, the National ICT Council has conducted a review of central government’s ICT system portfolios, mapping their ICT systems and creating an overview of the challenges.

Infrastructure

The Danish public digital infrastructure enabled public service to remain at a high level even with a high degree of remote work within the state, regions and municipalities.
