Free Software in Echirolles

2020-2026

1. Awareness

- **Digital is not politically neutral**

- **Tech giants have made digital a political object (Cambridge Analytica, Russian influence on elections, etc.)**
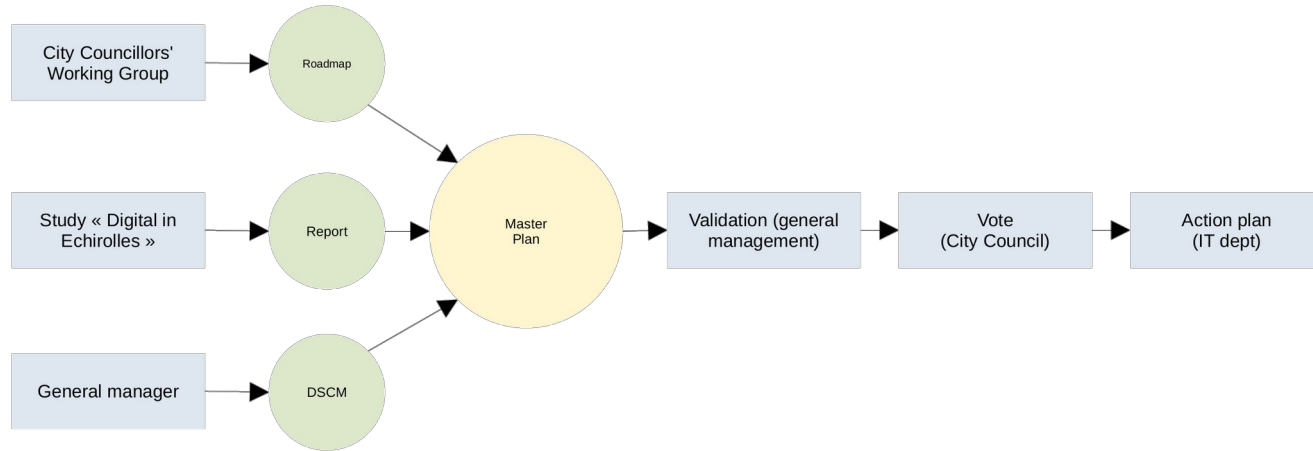

- **There are many ways to deal with digital**

→ Awareness of political issues related to digital technology

- **Many free software deployment projects in public service have failed**

→ A strategy is needed

Process

3. Raising awareness

- **Free software isn't the objective, it's a means**

    → The goal is to have the best public service

- **Do not assert, demonstrate**

    → Identify volunteers

- **Take the time to do things right**

    → No target date

    → No target numbers
