AKN4EU: Shaping the Future of Legal Information Exchange

Edyta POSEL-CZESCIK, Publications Office of the EU

SEMIC 2023: AI in digital-ready policy design and legal drafting

Building on an open standard

Why standards?

cebu pacific **FLYKNOWHOW**

DOES IT FIT?

Hand Carry Item Restrictions
For International and Local flights

Up to 2 bags only!

Item	Height (H)	Width (W)	Length (L)
SMALL BAG	35 cm	20 cm	20 cm
HAND CARRY BAG	56 cm	23 cm	36 cm

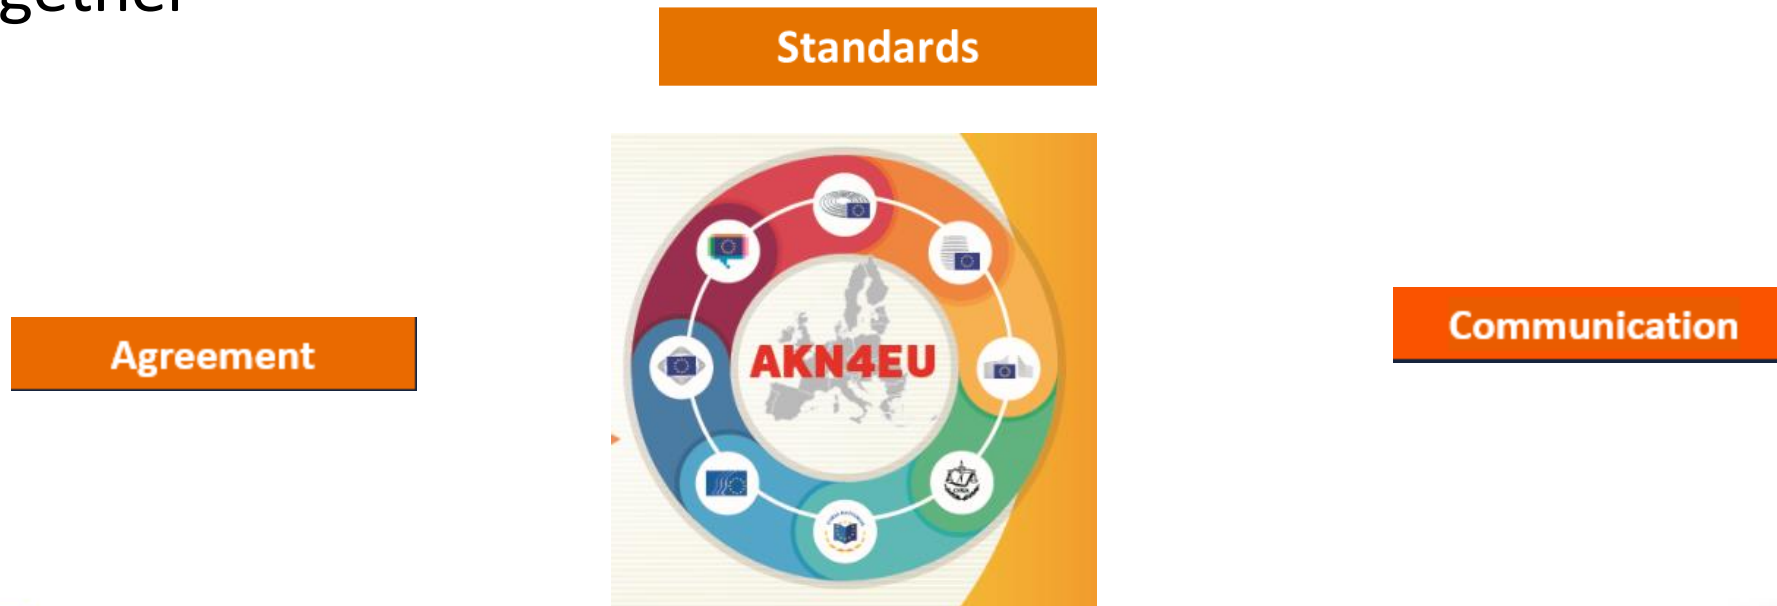

Small bag under your seat

Hand carry bag for cabin storage

Why standards?

- **Interoperability:** ability of two systems to communicate and work together

How does it work?

Collaborative standard development based on business needs

Framed by the Interinstitutional Metadata and Formats Committee

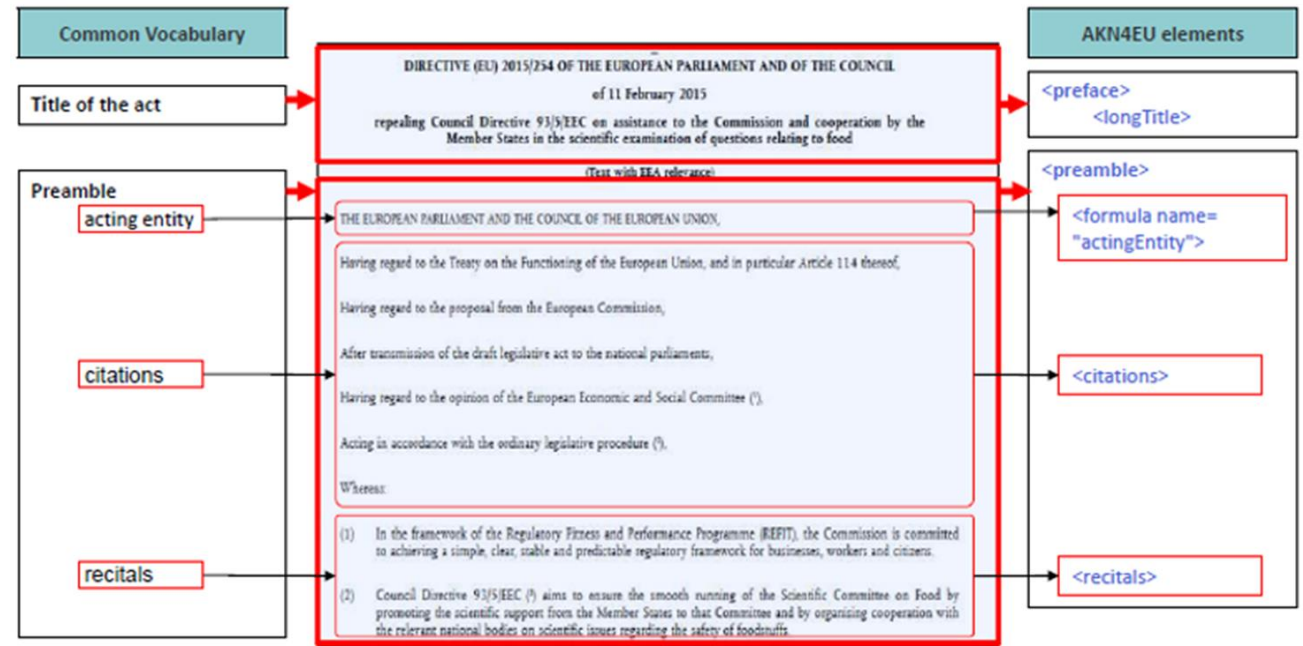

How does it work?

- The Publications Office as a neutral **facilitator**:
framework
technical guidance
knowledge sharing
observer in OASIS
- collaboration with **Interoperable Europe**
towards a community of practice

Scope

- Ordinary Legislative Procedure
- Other legislative acts of the EU
- Interest from Member States

Added value

- Interoperability, traceability
- Collaborative work
- Cost-savings (automatization, remove conversions)
- New service offerings (reporting obligations, consolidation)

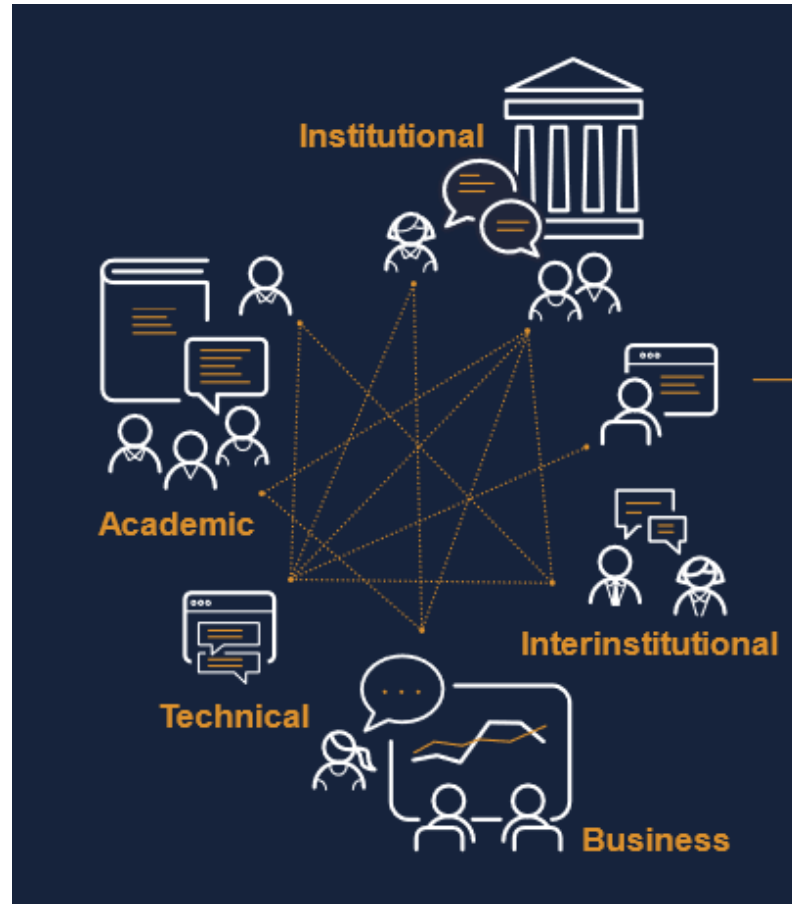

Structured legal data + AI = superpowers

Practical applications

- Legal research
- Law-As-Code
- Document analysis
- Decision support

Who benefits?

Thank you!
